I'm a front-end developer. I use the library react, implemented in some personal projects. Using several tools as hooks, API connection, libraries as react router, redux toolkit, bootstrap and tailwind and tools. Also, I used the help of firebase, to use it as a complement working as a backend or storage. The projects include a simulation of an e-commerce, a to-do app, a weather and GitHub app working with an API, and a gallery working with a login.

WORK EXPERIENCE

August/2010- April/2015 **SELLER**

Novedades Ongui

Activities:
Sells
Customer service
Cleaning
Inventory.
